## DL 2101TA - LIGHTING

- |   |   |
|---|---|
| <input type="checkbox"/> Single-point controlled lighting plant           | <input type="checkbox"/> Single-point controlled lighting plant with socket |
| <input type="checkbox"/> Switch controlled two-lamps lighting plant       | <input type="checkbox"/> Two-point controlled lighting plant                |
| <input type="checkbox"/> Three-point controlled lighting plant            | <input type="checkbox"/> Four-point controlled lighting plant               |
| <input type="checkbox"/> Circuit breaking-relay controlled lighting plant | <input type="checkbox"/> Switching-relay controlled lighting plant          |
| <input type="checkbox"/> Light installation controlled by time relay      | <input type="checkbox"/> Hot cathode fluorescent lamp plant                 |

## DL 2101TAS - LIGHTING ADVANCED

- |   |  |
|---|--|
| <input type="checkbox"/> Switch controlled two-lamps low energy lighting plant                          | <input type="checkbox"/> Emergency lighting plant  |
| <input type="checkbox"/> Brightness control with a dimmer from a single point                           | <input checked="" type="checkbox"/> Brightness control with a dimmer from a single or multiple points  |
| <input type="checkbox"/> Light system of halogen and incandescent lamps controlled by a twilight switch | <input type="checkbox"/> Light system of halogen and incandescent lamps controlled by an automatic infrared switch fitted with adjustable twilight |
| <input type="checkbox"/> Light system with daily electromechanical time switch                          |  |

## DL 2101TB - SIGNALLING

- |   |   |
|---|---|
| <input type="checkbox"/> Signalling installation                            | <input type="checkbox"/> Single-control signalling system                         |
| <input type="checkbox"/> Reciprocal control signalling system               | <input type="checkbox"/> Display indicator and reset pushbutton signalling system |
| <input type="checkbox"/> Ringing system with door and main entrance control | <input type="checkbox"/> Electric lock bell system                                |

## DL 2101TC - HOUSE PHONE

- |  |  |
|--|--|
| <input type="checkbox"/> Two reciprocal call house-phone plant | <input type="checkbox"/> Two reciprocal call house-phone plant at short distance |
| <input type="checkbox"/> Coupled two house-phone plant         | <input type="checkbox"/> Main house-phone and two shunted house-phones plant     |
| <input type="checkbox"/> Communicating house-phones plant      | <input type="checkbox"/> Connection between two derivatives and 1 external unit  |

## DL 2101TD - HOTEL / HOSPITAL

- |   |   |
|---|---|
| <input type="checkbox"/> Installation for audience request    | <input type="checkbox"/> Installation for hotel |
| <input type="checkbox"/> Signalling installation for hospital |   |

## DL 2101TF - FIRE ALARM SYSTEM

- Fire-fight protection system

## DL 2101TG - INTRUDER ALARM SYSTEM

- Anti-intrusion installation

## DL 2101TH - VIDEO INTERCOM

- |   |   |
|---|---|
| <input type="checkbox"/> Connecting the ring            | <input type="checkbox"/> Connecting the alarm and the light plate |
| <input type="checkbox"/> House phone installation       | <input type="checkbox"/> Video outdoor station                    |
| <input type="checkbox"/> Video house phone installation |   |
