

ELECTRIC MACHINES – OPENLAB - 0.2 kW

DL 10282 – ELECTRIC AND SPEED MEASUREMENT

- 2 digital voltmeters ac/dc
Full scale: 99.9 V
 - 2 digital ammeters ac/dc
Full scale: 19.9 A
 - 1 speed meter: 0 - 4000 rpm
- Single-phase power supply from mains.
Complete with output for overspeed protection.

DL 10283 – LOADS AND RHEOSTAT

- resistors:
3x15 Ohm, 90 W each,
1 Ohm + (0 - 2 Ohm), 80 W
- capacitors: 3 x 80 μ F, 150 V
- rheostat: 0 - 80 Ohm, 1 A

DL 10284 – ADAPTER BRACKET

Necessary for connecting the locking device, the brake or the drive motor.

DL 10285 – LOCKING AND ROTATING

Suitable for locking and rotating the rotor of slipping induction motors to obtain an induction regulator and phase transformer.

DL 10185 – POLE CHANGING

Switch to change the number of poles on Dahlander motors.
