

DL 3155BRS system

DEVELOPMENT MODULE WITH SUB-MODULES

Composed of a development module and a kit of sub-modules.

DL 3155BRS – Development module

The development module includes 9 free slots on which electronic expansion sub-modules can be inserted.

Each slot contains connectors in its upper as well as in its lower side.

The connectors give access to the internal input and output points of the sub-modules.

The module is also provided with terminals for the power supply of the sub-modules.
